

Drug Impairment Training for Texas Employers

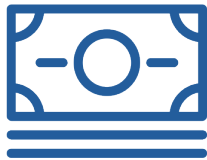

WHO SHOULD ATTEND?

Your company's health, safety, wellness, human resource, and public affairs professionals; business owners; senior and executive management.

WHAT DOES IT COST?

The DITTE education program is grant-funded by the Texas Department of Transportation, and there is **NO COST to participants.**

YES. I WANT TO HOST!

A minimum of 10 attendees (HR, risk manager, safety leaders, managers/supervisors) is required to hold the course.

Host Facility Requirements:

Comfortable seating for participants with tables; AV equipment and technical assistance for setup.

To host this program at your training facility, email the contacts shown here.

SCENARIO BASED LEARNING

This newly revised education program uses engaging scenarios and group activities to provide managers and supervisors with the learning tools to:

- Identify the signs and symptoms of impairment, including alcohol, illicit drugs, and prescription drugs
- Educate their employees on traffic safety to help reduce the number of alcohol- and drug-related fatalities and injuries on Texas roadways
- Develop (or improve) company drug policies, programs, and practices with **your organization**

CAN YOUR MANAGERS and supervisors identify an impaired employee in the workplace? This education is a **highly effective staff development tool** to help your leaders to do just that!
