

# **Texas Impaired Driving Task Force**

## **Recommendations for Alcohol and Drug Prevention Programs K–12th Grade**

*Living Document – Updated August 2021*

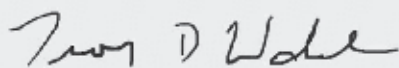

## Dear Texas School Administrators and Staff:

School-based prevention programs, beginning in elementary school and continuing through secondary school and beyond, can play a pivotal role in preventing underage drinking and impaired driving. If children can learn healthy attitudes towards alcohol and drugs, then they may be able to adopt safe behaviors that they carry with them into adolescence and beyond.

Currently, Texas does not have a standard mandatory traffic safety or impairment curriculum. To that end, the Texas Impaired Driving Task Force (TxIDTF) has developed the *Texas Impaired Driving Task Force Recommendations for Alcohol and Drug Prevention Programs K-12th Grade* for your reference as you consider implementing alcohol and drug prevention programs in your schools. The purpose of this reference book is to provide Texas K-12th grades with current, impaired driving information for inclusion in health and other curriculum. This reference book provides an overview of alcohol and drug prevention programs that vary in cost, time, and materials so that you can select the program that is best suited for the needs of your students, staff, and schools.

We recognize that spare time in the classroom is limited. Each of the programs listed in this reference book meets a Texas Education Knowledge and Skills (TEKS), so that your teachers, instructors, and mentors can continue to teach to state standards while instilling valuable lessons about alcohol, drugs, and impaired driving. This reference book is split into two sections, including 1) evidence-based educational programs and 2) programs funded by the Texas Department of Transportation that address impaired driving. We hope that you find this reference book beneficial as you consider implementing alcohol and drug prevention programs. The TxIDTF's mission is to eliminate impaired driving fatalities, injuries, and crashes on Texas roadways. The TxIDTF recognizes that education continues to play a pivotal role in impaired driving prevention strategies.

Respectfully,

### **Troy D. Walden**

## Using Evidence-Based Practices and Programs to Reduce Youth Alcohol and Drug Use

When it comes to preventing and reducing youth alcohol and drug use, there is no silver bullet. In the absence of a single cure-all, it is best to use policies, programs, and practices that have a demonstrated effectiveness in solving or addressing the issue at hand. Using evidence-based strategies not only yields greater positive outcomes, but also provides a more effective means of using limited resources.

Because there is not a single approach that works in all cases, a comprehensive prevention system addressing intervening variables that lead and contribute to alcohol use is most effective. According to the Substance Abuse Mental Health Services Administration, the variables to address include:

- Poor enforcement (of existing policies or laws)
- Easy retail access (sales to minors or alcohol outlet density)
- Social access (getting alcohol through parties and friends)
- Promotion (ad placement and product/brand sponsorships)
- Pricing (low excise taxes or sales on products/bar specials)
- Social norms (rite of passage, perception that peers are doing it and perception of risk – will I get in trouble if I get caught using this product?)

These variables exist in every community, though each community experiences the intervening variables in its own way and has its own specific issues that it must address. A strong prevention system consists of strategies that are tailored to a community's needs and focus on both individual behavioral change and community environmental change.

When addressing the variables outlined above, selecting strategies that have been proven by sound research and evaluation methodologies offers the greatest likelihood of yielding the desired results.

This reference book provides information about school-based alcohol and drug education programs that have been proven to effect change on specific outcomes. According to research found in *Alcohol: No Ordinary Commodity*, school-based prevention programs aim to achieve one or more of the following:

- Change the adolescent's drinking beliefs, attitudes, and behaviors
- Modify factors associated with adolescent drinking (e.g., social skills, self-esteem)
- Delay the onset of first use of alcohol
- Reduce the use of alcohol
- Reduce high-risk drinking
- Minimize the harm caused by drinking

Communities began implementing school-based programs focused on preventing and reducing underage alcohol use in the 1960s. In the early years, prevention was focused on increasing knowledge of alcohol use and the associated risks and dangers with the purpose of changing behavior (informational approach). In subsequent years affective education became popular which addresses self-esteem, general social skills, values clarification, or similar factors assumed to underlie underage alcohol use. There was also a focus on encouraging alternative activities assumed to be inconsistent with alcohol use such as playing sports or meditating. However, research has shown that a majority of the programs that employ informational approaches and/or affective education have been largely ineffective (Cuijpers, 2003).

Starting in the early 1980s, social influence programs were developed in response to the ineffectiveness of informational and affective education programs. Social influence programs assume that most adolescents have an unfavorable attitude towards alcohol, tobacco, and other drug use, yet when challenged about their beliefs they are easily swayed because they have had little practice resisting social pressure. The programs attempt to prepare students against challenges to

their beliefs through resistance skills that focus on short-term and immediate social consequences. In the early 1990s, it was recognized that adolescent alcohol use is determined less by direct pressure from others and more from a myriad of subtle social influences (as indicated in the intervening variables previously mentioned). Since the 1990s, there has been a shift from focusing primarily on refusal/resistance skills to focusing on normative education, which corrects a student's tendency to over-estimate the number of their peers that actually use and/or approve of alcohol use. Many school-based programs now include a combination of both normative education and resistance skills training.

It is also important to note that research assessing 207 universal school-based drug prevention programs, many of which had alcohol as their focus, found there was little effect from non-interactive programs, such as lectures focused on increasing alcohol knowledge or affective education. (Tobler et al., 2007). However, interactive programs that fostered interpersonal skills development did show some positive effects.

There is research and scientific evaluation that indicates some resistance skills and normative education programs work at reducing alcohol use and some do not.

The programs presented in this reference book are social influence programs with demonstrated evidence of effecting change on specific outcomes. The document provides the reader with a target age group, program description, what entities deem the program as evidence-based, the changes the program is intended to affect, outcomes, program costs, and contact information.

Again, because no two schools are exactly alike, and resources are often limited, it is important for a school to select evidence-based programs that 1) best address the intervening variables present at your school, and 2) offer the biggest "bang for the buck." It is also critical that schools honor the fidelity of the programs to observe the intended outcomes and results.

With evidenced-based programs and practices, school administrators and educators can maximize the impact their limited resources will have on reducing alcohol abuse, while at the same time reducing unanticipated consequences. It may require a departure from current prevention practices or a greater investment of resources but using evidence-based programs and practices should generate greater outcomes making it worth the return on investment.

## Across Ages

Ages 9-13; Grades 5-8

### **During-School; After-School**

#### **Program Description**

Across Ages targets at-risk middle school youth through mentorship using school and community-based program components. The program matches adult mentors (55+) with youth aged 9-13 years old. Ultimately, the goal of Across Ages is to increase protective factors to prevent or delay substance use. The four program components include mentoring, community service, classroom curriculum focusing on social competence training, and parent workshops.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** >\$2,100

**Cost Description:** The cost includes onsite training, a program manual, and a handbook. The onsite training costs \$2,000, the manual costs \$75, and the handbook costs \$25.

**Optional Costs:** Technical assistance costs \$500 per day.

**School Subjects Covered:** Health

**Program Components:** Community, Mentor, Parent, Student

**Reviewing Agencies:** California Evidence-Based Clearinghouse for Child Welfare, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### **Program Publications**

## Achievement Mentoring

Ages 9-16; Grades 4-11

### During-School

#### **Program Description**

Achievement Mentoring (also known as Behavioral Monitoring & Reinforcement Program (BMRP) and formerly called Prevention Intervention) encourages high school completion by pairing students with school-based staff mentors (teacher, social worker, counselor, nurse, psychologist, or youth worker). The school-based mentors meet with the students during weekly small group and individual sessions and seek to collaborate with students in navigating potential obstacles to high school completion. The goal of Achievement Mentoring is to encourage the mentee to be motivated in achieving success in all aspects of life. The program also promotes school connectedness in order to enhance student learning and academic achievement. Through the

program, students will learn valuable problem-solving skills and will form positive habits and patterns of behavior.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** \$20,000

**Cost Description:** The cost includes onsite training, a program manual, and a handbook. The onsite training costs \$2,000, the manual costs \$75, and the handbook costs \$25.

**Optional Costs:** Technical assistance costs \$500 per day.

**School Subjects Covered:** Health

**Program Components:** Mentor, Student

**Reviewing Agencies:** Blueprints, National Dropout Prevention Center, National Mentoring Research Center

## Alcohol Literacy Challenge

Ages 10-18; Grades 6-12

### During-School

#### **Program Description**

Alcohol Literacy Challenge (ALC) is an underage and binge drinking prevention program that questions students' beliefs about alcohol use. The lessons utilize media literacy approaches that show how alcohol marketing can create deeply held positive beliefs about drinking. A change in both alcohol expectancies and alcohol use occur when students learn these media literacy concepts. Additionally, the program educates students about the physical effects of consuming alcohol, and the social & emotional effects of alcohol use. The ALC provides age appropriate lessons that include student activity sheets, instructor talking points, & student evaluations. Furthermore, key concepts are presented in movies and animations that will engage students.

#### **Substances Addressed:** Alcohol

**Cost:** \$500 per annual license

**Cost Description:** The ALC is provided in a PowerPoint format and the cost of the license is \$1.25 per student per year, plus a \$50.00 security and handling fee. The minimum annual license that can be purchased is \$500 (for training up to 450 students + the \$50 security fee).

**Optional Costs:** Technical assistance costs \$500 per day.

**School Subjects Covered:** English Language Arts, Health, Psychology, Sociology

**Program Components:** Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### **Program Publications**

## AI's Pals: Kids Making Healthy Choices

Ages 3-8; Grades K-2

### During-School

#### **Program Description**

AI's Pals is designed to improve problem-solving skills, social and emotional health, self-control, and healthy decision-making skills. These skills are taught through short lessons, appropriate teaching approaches, interactive puppets, and other fun activities. Additionally, parents are regularly updated about the skills children are learning and are given exercises to support these behaviors at home.

## All Stars

Ages 9-17; Grades 4-12

### During-School; After-School

#### **Program Description**

All Stars prevents high risk behaviors through a character-based approach designed to develop positive norms, build strong relationship bonds, promote positive parenting behaviors, develop future goals, and school and community involvement. All Stars is comprised of five programs which correspond to grade level, including All Stars Character Education, Core, Booster, Plus, and Senior. These programs complement each other, covering the entire span of adolescent development. All Stars Character Education, Core, Booster, and Plus engage parents through a variety of activities and encourage children to have meaningful conversations with parents to reinforce classroom lessons.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco, Vaping

**Cost:** \$400 per curriculum

**Cost Description:** The cost includes the All Stars Facilitator manual and student materials. The All Stars Facilitator manual ranges from \$35 to \$100 depending on the specific All Stars curriculum, and the student materials range from \$6 to \$10 per student depending on the specific curriculum. A 30-student class could anticipate paying \$400 for one curriculum.

**Optional Costs:** Training is available, but a quote must be requested through the company website.

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** California Evidence-Based Clearing House for Child Welfare (All Stars Core curriculum evaluated), Office of Juvenile Justice and Delinquency Prevention (OJJDP), US Department of Education - Office of Safe and Drug Free Schools (All Stars Core curriculum evaluated)

## ATHENA (Athletes Targeting Healthy Exercises & Nutrition Alternatives)

Ages 13-17; Grades 7-12; Females

### During-School; After-School

#### Program Description

ATHENA is designed for female athletes using a team-centered and peer-led program to target potential risk factors associated with eating disorders and body issues. The goal of ATHENA is to prevent eating-disorders and subsequent drug use (e.g. steroids and diet pills) in female athletes.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$1,000+ for two teams

**Cost Description:** The cost includes curriculum and guides for athletes and squad leaders. The curriculum costs \$280, and the guides can be purchased for \$11 per student.

**Optional Costs:** None identified

**School Subjects Covered:** Health, Physical Education

**Program Component:** Student

**Reviewing Agency:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### Program Publications

## ATLAS (Athletes Training and Learning to Avoid Steroids)

Ages 14-17; Grades 9-12; Males

### During-School; After-School

#### **Program Description**

ATLAS is designed for male athletes to provide sports nutrition and strength training alternatives to prevent risky behaviors (e.g., alcohol or drug use). The program uses a peer-led approach and curriculum based on positive peer pressure and role models.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$1,000+ for two teams

**Cost Description:** The cost includes curriculum and guides for athletes and squad leaders. The

curriculum costs \$280, and the guides are \$11 per student.

**Optional Costs:** Training is recommended. The registration fee is \$195 per participant, and program materials are \$310 per participant.

**School Subjects Covered:** Health, Physical Education

**Program Component:** Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP), US Department of Education - Office of Safe and Drug Free Schools

#### **Program Publications**

## Caring School Community

Ages 5-11; Grades K-6

### During-School; After-School

#### **Program Description**

The Caring School Community (CSC) program focuses on strengthening school bonding by building a classroom and schoolwide community to improve social skills, emotional skills, and prosocial behaviors. In addition to class meetings, home and schoolwide activities, CSC includes a cross-ages mentoring program. The objective is to foster positive academic performance and reduce substance use, violence, and mental health issues.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** \$225 per grade level; \$1,500 for all grades

**Cost Description:** The package includes lesson plans, a teacher's calendar, an activity book, at-

home activities, as well as schoolwide community building activities.

**Optional Costs:** A principal's package can be purchased for \$425 which includes everything abovementioned with a leadership guide for principals.

**School Subject Covered:** Health

**Program Components:** Mentor, Parent, Student

**Reviewing Agencies:** National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

## Coping Power Program

Ages 9-12; Grades 4-6

### During-School; After-School

#### **Program Description**

The Coping Power Program addresses social skills, self-control, and positive parenting behaviors through skills-based training. The program includes group sessions focused on teaching children positive behaviors, such as problem solving and anger management, as well as a program component to support parental involvement. The program also includes cognitive-behavioral group sessions.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** \$300+

**Cost Description:** The cost includes the program

intervention kit, the facilitators guide, and the parent group facilitators guide. The kit costs \$200, and the two facilitators guides are \$60 and \$50, respectively.

**Optional Costs:** Training is available for \$175 for a two-day training.

**School Subjects Covered:** English Language Arts, Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, California Evidence-Based Clearinghouse for Child Welfare, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

### After-School

#### Program Description

The EFFEKT program (formerly the Örebro Prevention Program) encourages parents to promote a zero-tolerance policy for alcohol use among children with the aim of preventing alcohol abuse among youth. Parents are given information via meetings and letters throughout the school year, and are also informed of community activities and events for their children to participate in. The EFFEKT program emphasizes clear communication and strict rules between parents and children, including signed agreements about

alcohol use and other important family issues.

**Substance Addressed:** Alcohol

**Cost:** \$225 per teacher

**Cost Description:** The cost includes a 2-day training course. The training for 30 teachers is \$6,730, which is about \$225 per teacher. The curriculum and materials are included in the initial training package.

**Optional Costs:** None identified

**School Subject Covered:** Health

**Program Component:** Parent

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### Program Publications

## During-School

### Program Description

The Good Behavior Game (GBG) promotes positive behavior for students. GBG rewards students for following classroom rules, such as following directions or working quietly. The program aims to reduce aggressiveness, disruptive behavior, and future behavioral issues, such as drug and alcohol use.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$800

**Cost Description:** Implementation materials are

\$600 per teacher, and the coach material set is \$200 per coach.

**Optional Costs:** Onsite training is available for \$2,000 per day and technical assistance is available for \$200 per hour.

**School Subjects Covered:** English Language Arts, Health, Physical Education

**Program Component:** Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness

**During-School; After-School****Program Description**

Guiding Good Choices aims to provide the knowledge and skills needed for early adolescence. The program teaches children the skills to resist drug use, as well as promote good behavior and family bonding. The program includes five sessions where students learn to resist peer pressure. In addition, during these sessions, parents learn to identify substance abuse risk factors and strengthen parenting skills, such as conflict management.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco

**Cost:** \$840+

**Cost Description:** The Core Program Kit is \$839, and Family Guides can be purchased for \$13.99 each.

**Optional Costs:** Optional training is available for \$4,200.

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, California Evidence-Based Clearing House for Child Welfare, National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

## During-School

### **Program Description**

Keepin' it REAL (kiR) focuses on developing drug resistance skills. The program is highly interactive between students and teachers with lessons focusing on drug refusal, healthy choices, self-control, social skills, and critical thinking. Throughout the program, students will complete ten 45-minute lessons, which include videos, role-play, decision-making activities, and storytelling.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco

**Cost:** \$300-\$500

**Cost Description:** The materials bundle is \$300 and includes a teacher manual, 5 student

workbooks, 5 videos, and student completion certificates. Additional student workbooks can be purchased for \$35 per 5-pack. Alternatively, you can order all materials digitally for \$500 (two-year site license).

**Optional Costs:** Optional training is offered at \$2,000 for a 1-day training or \$2,500 for a 2-day training.

**School Subject Covered:** Health

**Program Component:** Student

**Reviewing Agencies:** California Evidence-Based Clearinghouse for Child Welfare, Texas Education Agency - Evidence Based Programs for Alcohol Awareness

#### **During-School; After-School**

##### ***Program Description***

LifeSkills Training is a school-based substance abuse curriculum that can be used from K-12th grades. The program aims to improve drug-related knowledge and attitudes, as well as teach students skills for resisting peer pressure and developing social skills. The curriculum is developmentally appropriate and includes a variety of activities, such as lectures, discussions, activities, and practice.

***Substances Addressed:*** Alcohol, Drugs-General, Tobacco

***Cost:*** \$175-\$275 per curriculum

***Cost Description:*** Curriculum sets range from \$175 to \$275 depending on grade level.

***Optional Costs:*** Additional CD/DVD materials can be purchased (\$10-\$20 each). Online Provider Training is \$250 plus materials. Contact the company for a quote for in-person teacher trainings.

***School Subjects Covered:*** English Language Arts, Health, Social Studies

***Program Component:*** Student

***Reviewing Agencies:*** Blueprints, National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

### **During-School; After-School**

#### ***Program Description***

Lions Quest is a school-based social and emotional learning program designed to equip students with the tools necessary to understand and cope with emotions, establish and accomplish goals, demonstrate empathy for peers, create positive relationships, and make mature choices. The program provides skill-building curriculum, opportunities for parent involvement and community service, and reinforcement and enrichment activities. Lions Quest also teaches behavioral and social techniques for middle school students to help resist alcohol and drug use. Lions Quest helps foster positive student behaviors that leads to greater academic success, improved school connectedness, and improved school climate.

***Substances Addressed:*** Alcohol, Drugs-General, Tobacco

***Cost:*** \$199 per 5-year individual teacher license (1-50 teachers)

***Cost Description:*** The Online Edition contains everything you need to teach the Lions Quest

program. Every teacher/facilitator using the program should have their own Individual Teacher License for each grade level they teach. An individual 5-year license is \$199/each for 1-50 teachers, \$149/each for 51-150 teachers, or \$99/each for over 150 teachers.

***Optional Costs:*** The Print + Online Edition contains the print Facilitator's Resource Guide and the entire Online Edition as well. Every teacher/facilitator using the program should have their own Individual Teacher License for each grade level they teach. An individual 5-year license for the print + online edition is \$249/each for 1-50 teachers, \$199/each for 51-150 teachers, or \$149/each for over 150 teachers.

***School Subjects Covered:*** English Language Arts, Health, Social Studies

***Program Component:*** Community, Parent, Student

***Reviewing Agencies:*** National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), U.S. Department of Education - Office of Safe and Drug-Free Schools

### **During-School**

#### **Program Description**

The Master Mind Program aims to improve decision-making capabilities through mindfulness training. By engaging students in mindfulness training through classroom curriculum, interactive activities, and homework, students develop skills to help improve self-control. The students are also taught to evaluate and avoid risky situations, especially surrounding substance abuse. Additionally, students develop coping mechanisms for stress and anxiety.

**Substance Addressed:** Drugs-General

**Cost:** \$500 per teacher

**Cost Description:** The instructor's kit includes the teacher manual, student workbook, multimedia classroom presentations, teacher certification test, and student resources.

**Optional Costs:** Renewal fee of \$25 every 2 years.

**School Subject Covered:** Health

**Program Component:** Student

**Reviewing Agency:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### **Program Publications**

## During-School

### Program Description

Media Ready is a media literacy program for middle-school students that aims to prevent alcohol and tobacco use. Students are empowered to make informed decisions about substance use through ten interactive lessons that encourage abstinence from alcohol use and improve critical thinking skills when interpreting media messages.

**Substances Addressed:** Alcohol, Tobacco, Vaping

**Cost:** \$250 per instructor

**Cost Description:** The cost includes the teacher's manual, digital student resources, and digital presentations.

**Optional Costs:** None Identified

**School Subjects Covered:** English Language Arts, Health

**Program Component:** Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness

### Program Publications

## Michigan Model for Health

Ages 5-18; Grades K-12

### During-School

#### **Program Description**

The Michigan Model for Health (MMH) focuses on several health issues such as nutrition, physical activity, social health, and substance use prevention. The comprehensive health education curriculum is designed using a building-block approach with age appropriate lessons and activities.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$190-\$515 per grade

**Cost Description:** The manuals cost \$50 to \$130, and the grade support kits cost \$140 to \$385.

**Optional Costs:** Support materials are available for purchase.

**School Subjects Covered:** English Language Arts, Health, Science, Social Studies

**Program Component:** Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP), US Department of Education - Office of Safe and Drug Free Schools

#### **Program Publications**

## Peers Making Peace

Ages 3-18; Grades PreK-12

### **During-School; After-School**

#### **Program Description**

Peers Making Peace is designed to handle conflicts through peer-mediation to improve school environments with a focus on reducing violence and other discipline issues and maintaining drug-free schools. The program includes having schools identify peer mediators who help resolve conflicts among other students at the school and serve as drug-free role models.

**Substance Addressed:** Drugs-General

**Cost:** \$1,350+

**Cost Description:** The Implementation Kit includes a manual and a site license to reproduce student workbooks and videos (\$500). Facilitator training, which includes a 3-day, 21-hour certification training, is \$850.

**Optional Costs:** None Identified

**School Subjects Covered:** English Language Arts, Health, Social Studies

**Program Components:** Mentor, Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP), US Department of Education - Office of Safe and Drug Free Schools

#### **Program Publications**

## Positive Action

Ages 3-18; Grades PreK-12

### During-School; After-School

#### **Program Description**

The Positive Action program focuses on improving academic behaviors, family bonding, relationships, and reducing substance use, disruptive behaviors, and family conflict.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$390-\$460 per Instructor Kit

**Cost Description:** The overall cost is dependent on the implementation design. However, an Instructor's Kit is necessary for each instructor who will implement the program.

**Optional Costs:** Many optional materials can be purchased and implemented with the standard Positive Action curriculum, such as counselor, family, and community kits. In addition, a variety of trainings are available.

**School Subjects Covered:** English Language Arts, Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

## Positive Family Support

Ages 10-14; Grades 6-8

### During-School; After-School

#### **Program Description**

Positive Family Support (PFS) is a multi-tiered, school intervention program that targets youth at risk of problem behaviors, such as substance abuse. PFS is parent-focused and aims to develop family management and communication skills. The main objective of the program is to prevent behavior problems and substance use in adolescents by enhancing communication and parenting skills at home.

## Project ALERT

Ages 12-14; Grades 7-8

### **During-School; After-School**

#### **Program Description**

Project ALERT is designed to prevent substance use through developing and promoting non-use attitudes and beliefs. These skills are developed through interactive in-class activities, role-playing, and discussions. Parents are also involved by completing homework assignments with their student to reinforce the skills learned in school.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco, Vaping

**Cost:** Free

**Cost Description:** A digital version of Project ALERT is available online for free. In addition, training is also available for free online.

**Optional Costs:** None Identified

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** California Evidence-Based Clearinghouse, National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

#### **Program Publications**

## Project EX

Ages 14-19; Grades 9-12

### During-School

#### **Program Description**

Project EX program includes several motivational activities (e.g., yoga, interactive games, and a mock talk show) to stop or reduce tobacco use in high school students. The curriculum focuses on teaching self-control, mood management, and goal setting. In addition, the curriculum focuses on lessons for addressing stress, providing other relaxation methods, and discussing nicotine withdrawal.

**Substances Addressed:** Tobacco

**Cost:** \$100

**Cost Description:** The required teacher's manual costs \$60, and the required student workbooks are \$35 for a set of five. The student pre-tests and post-tests are \$2.50 each.

**Optional Costs:** Training is available from \$1,300 to \$2,000 depending on length of training.

**School Subjects Covered:** English Language Arts, Health, Physical Education

**Program Component:** Student

**Reviewing Agency:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

### During-School

#### **Program Description**

Project Northland curriculum targets alcohol use and prevention. The curriculum is designed to reduce alcohol use and associated behaviors (e.g., binge drinking) in middle school students. Additionally, the program encourages parents and the community to prevent the consumption and commercial sale of alcohol to minors.

**Substance Addressed:** Alcohol

**Cost:** \$625

**Cost Description:** The cost includes the curriculum and a program guide.

**Optional Costs:** None Identified

**School Subject Covered:** Health

**Program Components:** Community, Parent, Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

## Project Towards No Drug Abuse

Ages 14-19; Grades 9-12

### During-School

#### **Program Description**

Project Towards No Drug Abuse is designed for at-risk high school students. The curriculum focuses on improving positive skills (e.g., communication, decision making) through hands on activities and worksheets.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco

**Cost:** \$165+

**Cost Description:** The cost includes one teacher's

manual (\$90), five student workbooks (\$60), and one game board (\$15).

**Optional Costs:** An optional video can be purchased for \$25. In addition, training is available for \$1,300 to \$2,000 depending on the length.

**School Subjects Covered:** English Language Arts, Health

**Program Component:** Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

## Project Towards No Tobacco Use

Ages 10-14; Grades 5-9

### During-School

#### **Program Description**

The Project Towards No Tobacco Use (Project TNT) classroom curriculum is focused on preventing and reducing tobacco use. Project TNT is based on the belief that students will make better decisions if they are aware of misleading information regarding tobacco and tobacco use. Project TNT focuses on teaching skills to resist social pressures. The curriculum uses interactive activities to enhance student participation, including games, role-plays, discussions, activism letter

writing, and a videotaping project.

**Substance Addressed:** Tobacco

**Cost:** Not readily available

**Cost Description:** Not readily available

**Optional Costs:** Training is available from \$1,300 to \$2,000 depending on length of training.

**School Subject Covered:** Health

**Program Component:** Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP), US Department of Education - Office of Safe and Drug Free Schools

#### **Program Publications**

## Project Venture

Ages 10-14; Grades 5-8

### During-School; After-School

#### Program Description

Project Venture targets at-risk American Indian youth by focusing on cultural values. The program promotes prosocial behavior, as well as alcohol and drug prevention. Project Venture utilizes classroom-based activities, outdoor experiential learning, and afterschool/weekend intensive sessions. The program also includes a community service component where staff and students complete community service projects that contribute to community building.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** Not readily available

**Cost Description:** Not readily available

**Optional Costs:** Trainings and workshops are offered. Contact Project Venture for a quote.

**School Subjects Covered:** Health, Physical Education

**Program Components:** Community, Student

**Reviewing Agency:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

#### Program Publication

## During-School; After-School

### Program Description

Raising Healthy Children targets teachers, parents, and students. Teachers complete workshops that focus on classroom management skills and exercises to reduce aggressive behaviors and risk factors. Students complete lessons and exercises focused on peer-intervention strategies. And, parents participate through workshops and at-home sessions that focus on providing reinforcement and consequences for good and bad behaviors.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** Not readily available

**Cost Description:** The costs of this program vary depending on the classroom size.

**Optional Costs:** Training is available for \$950 per teacher for the first and second year and for \$500 for the third year.

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

## During-School; After-School

### Program Description

Reconnecting Youth teaches students skills to avoid or address risk factors. The program is designed for high risk students. The curriculum focuses on increasing self-esteem, improving decision-making skills, and enhancing interpersonal communication. Additionally, Reconnecting Youth aims to increase social involvement in healthy activities, especially activities that increase school bonding.

**Substances Addressed:** Alcohol, Drugs-General  
**Cost:** \$400+

**Cost Description:** The curriculum materials

include five lesson plan books and one student workbook for \$299 plus shipping. Additional student workbooks cost \$29.95 each plus shipping, and the modules cost about \$75 each.

**Optional Costs:** Posters are available for \$50-\$150. The teacher/facilitator training is available for \$8,800. Technical assistance (professional development workshops and webinars) are available for \$250.

**School Subjects Covered:** English Language Arts, Health, Social Studies

**Program Component:** Student

**Reviewing Agency:** Office of Juvenile Justice and Delinquency Prevention (OJJDP)

### During-School

#### Program Description

SPORT Prevention Plus Wellness (SPORT PPW) is designed to prevent substance abuse while also promoting physical activity, healthy eating, adequate sleep, and stress-reduction for youth. Students engage in goal setting to increase overall wellness and drug abstinence. SPORT PPW also includes optional parental materials to reinforce lessons at home.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco, Vaping

**Cost:** \$499

**Cost Description:** The cost includes the program and SPORT PPW manual.

**Optional Costs:** Training is available for \$199 to \$499 per teacher. Prices vary depending upon the type of training.

**School Subjects Covered:** English Language Arts, Health, Physical Education, Social Studies

**Program Components:** Parent, Student

**Reviewing Agency:** Blueprints

## Start Taking Alcohol Risks Seriously (STARS) for Families

Ages 11-15; Grades 6-9

### During-School; After-School

#### **Program Description**

Start Taking Alcohol Risks Seriously (STARS) for Families prevents alcohol use through identifying risk factors and provides targeted information on underage alcohol use. During the program, students are assessed for risk factors and alcohol use through a health consultation with a health care provider. “Key Facts Postcards” are also disseminated to parents to help foster good communication about alcohol use with their child. Additionally, parents are involved through take-home lessons that include prevention activities.

**Substance Addressed:** Alcohol

**Cost:** \$800

**Cost Description:** The cost includes the curriculum for \$299 and an audio training for program implementers for \$499.

**Optional Costs:** Optional materials can be purchased, including parent postcards (\$49.95 for 50), family take-home lessons (\$129.95 for 50), an implementation consultation (\$599 per hour), scannable outcome surveys (\$5 each), and evaluation services (\$10 per adolescent).

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness

## Strengthening Families Program

Ages 3-18; Grades PreK-12

### During-School

#### **Program Description**

The Strengthening Families Program prevents drug use in children whose parents have a history of abusing drugs. The program aims to improve behavioral health outcomes, as well as reduce problem behaviors (e.g. mental health, delinquency, substance abuse) through improving parenting and behavior management skills.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** \$450 per curriculum

**Cost Description:** Each age group curriculum must be purchased separately at a cost of \$450 each.

**Optional Costs:** A two-day training is available for \$4,100 for 16 or fewer, or \$4,900 for 36 or fewer.

**School Subjects Covered:** English Language Arts, Health, Social Studies

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, California Evidence-Based Clearinghouse for Child Welfare, National Institute on Drug Abuse (NIDA), Office of Juvenile Justice and Delinquency Prevention (OJJDP), Texas Education Agency - Evidence Based Programs for Alcohol Awareness, US Department of Education - Office of Safe and Drug Free Schools

## Strengthening Families Program : For Parents and Youth 10-14

Ages 10-14; Grades 5-8

### During-School

#### **Program Description**

Strengthening Families Program: For Parents and Youth 10-14 (SFP 10-14) (formerly known as Iowa Strengthening Families) is a seven-session program that aims to enhance family protective factors and decrease family risk factors related to youth substance use and other problem behaviors. The weekly two-hour sessions include skills-building activities for both the students and their parents. The parents and students also participate in a weekly family session where parents and students practice the skills they have acquired, work on conflict resolution and communication, and engage in activities to increase family bonding. The parental skills taught include appropriately communicating substance use expectations based on child development norms of adolescent substance use, using proper disciplinary actions, managing their child's emotions, and using effective communication. Children are taught refusal skills for dealing with peer pressure and other social-emotional skills.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco

**Cost:** ~ \$2270

**Cost Description:** The required materials include a Facilitator Manual for \$195, a DVD video set for

\$298, a poster set for \$55, and Love and Limits Magnetic Clips for \$25-\$125. Before purchasing the required materials you must be able to verify that you were trained within the last three years. The cost for a small training (10-15 facilitators) is \$4200 plus travel for one trainer (~\$1700) and cost for a large training (16-30 facilitators) is \$5400 plus travel for two trainers (~\$3400).

**Optional Costs:** You can purchase promotional materials, such as information brochures (\$20/pkg of 50), sticky notepads (\$27.50/pkg of 25), conversation cards (\$2.25 - \$90), and pens (\$55/pkg of 50). You can also purchase booster materials, including a Booster Manual – Sessions 1-4 (\$50) and Parent Booster DVD Sets (\$60). Materials are also available in Spanish.

**School Subjects Covered:** English Language Arts, Health, Social Studies

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, California Evidence-Based Clearinghouse for Child Welfare, Office of Juvenile Justice and Delinquency Prevention (OJJDP), National Institute on Drug Abuse (NIDA), Texas Education Agency (TEA)-Evidence Based Programs for Alcohol Awareness, U.S. Department of Education - Office of Safe and Drug-Free Schools

## Strong African American Families

Ages 10-14; Grades 5-8

### During-School; After-School

#### **Program Description**

Strong African American Families (SAAF) aims to prevent risky behaviors, such as substance abuse through training parents and a family therapy component. SAAF works to improve parenting practices related to monitoring youth and communication about alcohol use expectations, sexual activity, and racial socialization.

**Substances Addressed:** Alcohol, Drugs-General

**Cost:** \$7,000

**Cost Description:** Costs to implement include

purchasing the SAAF program package, as well as a 3-day on-site facilitator training for up to 30 participants, and technical assistance and consultation.

**Optional Costs:** None Identified

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints, California Evidence-Based Clearinghouse for Child Welfare, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

## Strong African American Families – Teen Program

Ages 14-16; Grades 9-10

### During-School; After-School

#### **Program Description**

The Strong African American Families - Teen (SAAF-T) program targets African-American students living in rural communities that are entering high school. The program includes 5 sessions focusing on reducing risky behaviors, substance abuse, and sexual risk-taking. SAAF-T integrates individual student skills building, parenting skills training, and family interaction training. Each session includes separate one-hour trainings for parents and students, followed by a one-hour combined session where parents and students can practice the skills learned individually. The goal of SAAF-T is to promote positive development of African American youth throughout

their teenage years by building on the strengths of African American families.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana, Tobacco

**Cost:** \$8,000

**Cost Description:** The cost includes a 3-day training, ongoing technical assistance, two sets of the program DVDs and online videos, a printed set of curriculum materials, access to PDF copies of curriculum materials, resource materials, and access to the program's impact Implementation Support Platform.

**Optional Costs:** None Identified

**School Subject Covered:** Health

**Program Components:** Parent, Student

**Reviewing Agencies:** Blueprints

## Too Good for Drugs – Elementary School

Ages 5-11; Grades K-5

### During-School

#### **Program Description**

Too Good for Drugs – Elementary School aims to build young students' self-efficacy and confidence. Skill building activities and lessons are designed to the intellectual, cognitive, and social development of the student. Age appropriate lessons address managing emotions, resisting peer pressure, seeking positive peer relationships, and making healthy decisions. Additionally, Too Good for Drugs – Elementary introduces the harmful effects of substance use when developmentally appropriate. This foundation primes students for conversations about tobacco, alcohol, and other drug use in later years.

## Too Good for Drugs – Middle School

Ages 9-13; Grades 6-8

### During-School

#### **Program Description**

Too Good for Drugs – Middle School empowers middle schoolers to meet the difficulties of school life by providing social-emotional learning. Too Good for Drugs provides students with the skills to avoid substance use and increase confidence and self-efficacy through lessons on goal setting, decision making, and problem solving.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$295 per program kit

**Cost Description:** Each grade has its own program

kit available for \$295. Program kits include a teacher's manual, a starter pack of student workbooks (pack of 30), and activity materials needed for the program.

**Optional Costs:** Onsite trainings (max of 30 participants) are available for \$2,000 per day.

**School Subject Covered:** Health

**Program Component:** Student

## Youth Message Development

Ages 13-15; Grades 8-10

### During-School

#### **Program Description**

Youth Message Development consists of four lessons focusing on adolescent substance abuse prevention. The activities included in the program are designed to be engaging and encourage collaborations and discussions among students. The curriculum incorporates advertisements for discussion and analysis, activities to increase engagement, and small-group formats to encourage learning from peers. The four lessons can be taught in one, 90-minute session, separated across four, 20- to-25-minute sessions, or two, 45-minute lessons. The Youth Message Development curriculum will increase student knowledge of advertising techniques used to sell alcohol, tobacco, and other drug (ATOD) products.

Additionally, the program aims to improve students' critical thinking skills and help them apply these skills to form substance use prevention messages.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco

**Cost:** \$350 per program bundle

**Cost Description:** The required program bundle includes a Teacher's Guide with all four lessons, student handouts, and PowerPoint presentations.

**Optional Costs:** Onsite trainings are available for \$2,000 plus travel for 1-day training and \$2,500 plus travel for a 2-day training.

**School Subject Covered:** English Language Arts, Health

**Program Component:** Student

**Reviewing Agencies:** California Evidence-Based Clearinghouse for Child Welfare

# Using Texas Department of Transportation (TxDOT)–Sponsored Programs to Reduce Youth Alcohol and Drug Use

The Texas Impaired Driving Task Force (TxIDTF) recognizes that every school and each school district have a different set of available resources to meet the varying needs of students, teachers, and staff. The advantage of implementing evidenced-based alcohol and drug prevention programs in schools is that they have demonstrated evidence of effecting change. However, many alcohol and drug prevention programs that have been certified as evidence-based are costly to implement and exceed resources available to schools.

Every year, the Texas Department of Transportation (TxDOT) funds numerous alcohol and drug prevention programs that can be implemented in schools. While not all of these programs have been certified as evidence-based, many of these programs have demonstrated promising practices. Additionally, because TxDOT provides funding for these programs through traffic safety grants, these programs are typically offered at no cost to schools. Programs are available both statewide and regionally.

If you are interested in implementing one of these programs at your schools, we urge you to reach out to contact the program directly to further coordinate.

## Alcohol Drug And Safety Training Education Program – AD-A-STEP For Life

Ages 3+; Grades PreK-12

### **During-School; After-School**

#### ***Program Description***

The Alcohol Drug and Safety Training Education Program (AD-A-STEP for Life) is a 3-hour program for PreK-12 students and their parents. The program can also be administered to adults identified as undereducated by federal guidelines. Each target audience receives age appropriate educational training, course material, and hands-on activities. The program's goal is to reduce the

number of impaired driving crashes where the driver is under the age of 21 by increasing public education and information.

***Substances Addressed:*** Alcohol, Drugs-General, Marijuana, Tobacco, Vaping

***Cost:*** Free

***Cost Description:*** Program is free

***Optional Costs:*** None identified

***School Subject Covered:*** Health

***Program Components:*** Parent, Student

#### ***Program Publications***

- None Identified

#### ***Program Notes***

- A flyer and social media marketing are available for information on dissemination and implementation of the program.
- While no formal evaluation exists, the project conducts evaluations every year that are reported to the Texas Department of Transportation.

## During-School; After-School

### Program Description

The Brazos Valley Injury Prevention Coalition's membership and associated activities are offered at no charge to schools and universities. The program covers the dangers of impaired driving, distracted driving, drowsy driving, seat belt use, and speeding. The coalition aims to reduce risky behaviors through assembly style programs, as well as hands-on educational activities that are age appropriate. Additionally, parents and mentors are

also invited to attend the program to learn about reducing risky behaviors.

**Substances Addressed:** Alcohol, Drugs-General, Tobacco, Vaping

**Cost:** Free

**Cost Description:** Program is free

**Optional Costs:** None identified

**School Subjects Covered:** Health, Physical Education, Science

**Program Components:** Mentor, Parent, Student

### Program Publications

- None Identified

### Program Notes

- Educational materials on impaired driving can be requested.
- Program information is available at: <https://brazosvalleyinjuryprevention.tamu.edu/programs/>
- Despite not having a formal evaluation, the program uses pre-and post-assessments to evaluate the program.

## Driving on the Right Side of the Road

Ages 5-18; Grades K-12

### **During-School; After-School**

#### **Program Description**

Driving on the Right Side of the Road (DRSR) incorporates traffic safety concepts, such as impaired-driving, into classroom curriculum. For no cost, schools can request a multitude of traffic safety storybooks and lessons to be distributed in classrooms. Additionally, DRSR offers trainings/workshops for teachers, and engages with the

community through conferences and outreach events.

**Substance Addressed:** Alcohol

**Cost:** Free

**Cost Description:** Program is free

**Optional Costs:** None identified

**School Subjects Covered:** English Language Arts, Health, Math, Social Studies

**Program Component:** Student

## Live Your DREAMS (Distraction REDuction Among Motivated Students)

Ages 13-19; Grades 8-12

### **During-School; After-School**

#### ***Program Description***

The Live Your DREAMS teen driver safety program is committed to reducing injuries from motor vehicle collisions in Brazoria, Fort Bend, Galveston, Harris, Montgomery, and Waller Counties. The program aims to increase awareness and education about protective and risk factors for motor vehicle safety through a multi-tiered program that can be utilized in the community or in the high school settings. Students participate in interactive activities to simulate the consequences of driving under the

influence or distracted, which provides a platform for discussion on impairment and safe options when impairment is an issue. In addition, parents of selected students attend an in-depth hospital based event with their teen.

***Substances Addressed:*** Alcohol, Drugs-General  
***Cost:*** Free

***Cost Description:*** Program is free

***Optional Costs:*** None identified

***School Subject Covered:*** Health

***Program Components:*** Parent, Student

#### ***Program Publications***

- None Identified

#### ***Program Notes***

- Educational materials on impaired driving can be requested.
- Program information available at: <http://go.memorialhermannhealth.org/trauma-live-your-dreams.html>

## Power of Parents

Ages 12-20; Grades 6-12

### After-School

#### **Program Description**

The Power of Parents is a research-based program that consists of a short presentation and high quality printed guides designed to assist parents and/or guardians to have positive discussions with their teens to not consume or abuse alcohol.

**Substance Addressed:** Alcohol

**Cost:** Free

**Cost Description:** Program is free

**Optional Costs:** None identified

**School Subject Covered:** Health

**Program Component:** Parent, Student

#### **Program Publication**

- Varvil-Weld, L., Scaglione, N., Cleveland, M. J., Mallett, K. A., Turrise, R., & Abar, C. C. (2014). #### **Program Notes**

- Power of Parents is part of the 'Take the Wheel' initiative, which is a comprehensive list of complimentary strategies to help end alcohol-impaired driving in Texas.
- Program information available at: <https://www.madd.org/the-solution/power-of-parents/>

**During-School; After School**

***Program Description***

Power of You(th) is designed to educate teens about the consequences of underage drinking. The program aims to demonstrate that pop culture and social media misrepresent the prevalence of underage alcohol use by using a 'social norming' strategy. The program influences teens to abstain from alcohol use before they are 21 with positive

social models of behavior that include "Protect Yourself," "Protect Ur Friends," and/or "Protect Ur Future."

***Substance Addressed:*** Alcohol

## Teens in the Driver Seat

Ages 12-18; Grades 6-12

### During-School; After-School

#### **Program Description**

Teens in the Driver Seat (TDS) is the first peer-to-peer program for teens that focuses solely on traffic safety and addresses all major risks for this age group, including impaired driving. Teens help shape the program and are responsible for implementing it and educating their peers and parents; the Texas A&M Transportation Institute (TTI) provides the science, guidance, and project resources. Schools receive resources and information pertaining to zero tolerance, other drugs, and education outreach materials to help address impaired driving among youth. In addition, high school students apply to be on the student advisory board, which is

instrumental in guiding future direction and content of programs. TDS programs are also encouraged to partner with the community for activities and outreach.

**Substances Addressed:** Alcohol, Drugs-General, Marijuana

**Cost:** Free

**Cost Description:** The Texas Department of Transportation covers the cost of the program resource kit.

**Optional Costs:** None identified

**School Subject Covered:** Health

**Program Components:** Community, Mentor, Parent, Student

#### **Program Publications**

- Resources available at: <https://www.t-driver.com/category/activity/>
- Program information available at: <https://www.t-driver.com>

### **During-School; After-School**

#### ***Program Description***

The program provides age-appropriate anti-DWI alcohol awareness presentations and information booths free to Travis, Hays, and Williamson Counties. The program also educates parents on how to initiate conversations with their children about alcohol use. The objective is to save the lives of teenagers by discouraging underage

alcohol consumption, and therefore lower the rate of underage alcohol-related car crashes among teenagers.

***Substance Addressed:*** Alcohol

***Cost:*** Free

***Cost Description:*** Program is free

***Optional Costs:*** None identified

## Watch UR BAC

Ages 13+; Grades 8-College

### **During-School; After-School**

#### ***Program Description***

Texas A&M AgriLife's Watch UR BAC is an interactive program that can be used in schools, county fairs, safety/health fairs, or any other community event to help provide information about the dangers of underage drinking and impaired driving. The Watch UR BAC program, funded by the Texas Department of Transportation, is a free resource to Texas community groups, faith-based organizations, schools, and businesses. Students are impacted through high tech video gaming

systems and impaired driving goggles. In addition, parents are also educated on current drug and alcohol trends.

***Substances Addressed:*** Alcohol, Drugs-General, Tobacco, Vaping

***Cost:*** Free

## Program TEKS

### Across Ages

*Ages 9-13; Grades 5-8*

*During-School; After-School*

- **Health Education, Grade 5.**

- o (b) (5) (C)
- o (b) (5) (D)
- o (b) (5) (F)
- o (b) (6) (A)

- **Health Education, Grade 6.**

- o (b) (5) (B)
- o (b) (5) (C)
- o (b) (7) (D)
- o (b) (11) (A)
- o (b) (11) (B)
- o (b) (11) (C)
- o (b) (11) (D)

- **Health Education, Grades 7-8.**

- o (b) (5) (H)
- o (b) (5) (J)
- o (b) (5) (K)
- o (b) (10) (A)
- o (b) (12) (C)
- o (b) (12) (D)
- o (b) (12) (E)

---

### Achievement Mentoring

*Ages 9-16; Grades 4-11*

*During-School*

- **Health Education, Grade 4.**

- o (b) (4) (B)
- o (b) (4) (C)
- o (b) (4) (D)

- **Health Education, Grade 5.**

- o (b) (5) (B)
- o (b) (5) (C)
- o (b) (5) (D)
- o (b) (5) (F)

- **Health Education, Grade 6.**

- o (b) (7) (B)
- o (b) (7) (C)
- o (b) (7) (D)
- o (b) (7) (G)

- **Health Education, Grades 7-8.**

- o (b) (1) (E)
- o (b) (2) (F)
- o (b) (4) (H)
- o (b) (6) (H)
- o (b) (6) (I)
- o (b) (6) (J)
- o (b) (6) (K)
- o (b) (6) (L)
- o (b) (6) (M)

- **Health 1, Grades 9-10 (One-Half Credit).**

- o (b) (2) (H)
- o (b) (4) (C)
- o (b) (7) (B)
- o (b) (7) (C)
- o (b) (7) (D)
- o (b) (7) (E)
- o (b) (7) (G)

- **Advanced Health, Grades 11-12 (One-Half Credit).**

- o (c) (7) (A)
- o (c) (7) (G)
- o (c) (7) (A)

## Alcohol Literacy Challenge

Ages 10-18; Grades 6-12

During-School

- o (b) (8) (B)
- o (b) (12) (A)
- o (b) (12) (B)

- o (b) (12) (C)
- o (b) (12) (D)
- o (b) (12) (E)

- o (b) (12) (F)
- o (b) (12) (G)

## ATHENA (Athletes Targeting Healthy Exercise & Nutrition Alternatives)

*Ages 13-17; Grades 7-12; Females*

*During-School; After-School*

### • Health Education, Grades 7-8.

- o (b) (5) (H)
- o (b) (5) (J)
- o (b) (5) (K)
- o (b) (10) (A)
- o (b) (12) (C)
- o (b) (12) (D)
- o (b) (12) (E)

### • Health 1, Grades 9-10 (One-Half Credit).

- o (b) (2) (H)
- o (b) (4) (C)
- o (b) (7) (B)
- o (b) (7) (C)
- o (b) (7) (D)
- o (b) (7) (E)
- o (b) (7) (G)

### • Advanced Health, Grades 11-12.

- o (b) (4) (C)
- o (b) (7) (D)

## ATLAS (Athletes Training and Learning to Avoid Steroids)

*Ages 14-17; Grades 9-12; Males*

*During-School; After-School*

### • Health 1, Grades 9-10 (One-Half Credit).

- o (b) (2) (H)

- o (b) (4) (C)
- o (b) (7) (B)
- o (b) (7) (C)

- o (b) (7) (D)
- o (b) (7) (E)
- o (b) (7) (G)

## Caring School Community

*Ages 5-11; Grades K-6*

*During-School; After-School*

### • Health Education, Grade 1.

- o (b) (2) (C)
- o (b) (3) (A)
- o (b) (3) (B)

### • Health Education, Grade 2.

- o (b) (2) (A)
- o (b) (2) (D)
- o (b) (2) (F)

### • Health Education, Grades 3.

- o (b) (4) (C)
- o (b) (4) (D)

- o (b) (7) (A)
- o (b) (8) (A)

### • Health Education, Grades 4.

- o (b) (4) (C)
- o (b) (4) (D)
- o (b) (7) (A)
- o (b) (8) (A)

### • Health Education, Grades 5.

- o (b) (5) (C)
- o (b) (5) (D)

- o (b) (5) (F)
- o (b) (6) (A)

### • Health Education, Grade 6.

- o (b) (5) (B)
- o (b) (5) (C)
- o (b) (7) (D)
- o (b) (11) (A)
- o (b) (11) (B)
- o (b) (11) (C)
- o (b) (11) (D)

## Coping Power Program

Ages 9-12; Grades 4-6

During-School; After-School

- |   |   |   |
|---|---|---|
| <ul style="list-style-type: none"><li>• <b>Health Education, Grade 4.</b><ul style="list-style-type: none"><li>o (b) (4) (C)</li><li>o (b) (4) (D)</li><li>o (b) (7) (A)</li><li>o (b) (8) (A)</li></ul></li><li>• <b>Health Education, Grade 5.</b><ul style="list-style-type: none"><li>o (b) (5) (A)</li></ul></li></ul> | <ul style="list-style-type: none"><li>o (b) (5) (B)</li><li>o (b) (5) (C)</li><li>o (b) (5) (D)</li><li>• <b>English Language Arts and Reading, Grade 5.</b><ul style="list-style-type: none"><li>o (b) (1) (A)</li><li>o (b) (1) (B)</li></ul></li></ul> | <ul style="list-style-type: none"><li>o (b) (1) (C)</li><li>o (b) (1) (D)</li><li>o (b) (4)</li><li>o (b) (6) (B)</li></ul> |
|---|---|---|
- 

## EFFEKT

Ages 12-14; Grades 6-8

After-School

- |  |   |  |
|--|---|--|
| <ul style="list-style-type: none"><li>• <b>Health Education, Grade 6.</b><ul style="list-style-type: none"><li>o (b) (7) (B)</li><li>o (b) (7) (C)</li><li>o (b) (7) (D)</li><li>o (b) (7) (G)</li></ul></li></ul> | <ul style="list-style-type: none"><li>• <b>Health Education, Grades 7-8.</b><ul style="list-style-type: none"><li>o (b) (1) (E)</li><li>o (b) (2) (F)</li><li>o (b) (4) (H)</li><li>o (b) (6) (H)</li></ul></li></ul> | <ul style="list-style-type: none"><li>o (b) (6) (I)</li><li>o (b) (6) (J)</li><li>o (b) (6) (K)</li><li>o (b) (6) (L)</li><li>o (b) (6) (M)</li><li>o (b) (12) (G)</li></ul> |

## Methodology

### I. Methods

#### A. Program Identification

To identify school-based education programs, the TxIDTF first identified appropriate entities which certify programs as evidence-based. The TxIDTF performed a search for evidence-based programs related to reducing and preventing alcohol and drug use and abuse in children and adolescents from the following entities:

- Blueprints for Healthy Youth Development
- California Evidence-Based Clearinghouse for Child Welfare
- National Institute on Drug Abuse (NIDA)
- Office of Juvenile Justice and Delinquency Prevention (OJJDP)
- Texas Education Agency (TEA)-Evidence Based Programs for Alcohol Awareness
- U.S. Department of Education - Office of Safe and Drug-Free Schools

Additionally, the TxIDTF identified programs sponsored by the Texas Department of Transportation (TxDOT) that are aimed at reducing and preventing alcohol and drug use and abuse in children and adolescents for inclusion.

#### B. Inclusion and Exclusion Criteria

For evidence-based programs to meet the initial inclusion criteria, programs had to be available in the United States and available in English. Next, programs were screened for the following exclusion criteria and were applied:

- Programs must have outcomes associated with reducing and/or preventing alcohol and drug use and abuse
- Programs must be active

The TxIDTF also reviewed the National Registry of Evidence-Based Programs and Practices (NREPP) as well as the Promising Practices Network (PPN). However, both of these programs were dissolved during the development of the first iteration of this reference book. As a result, programs which were only certified by one or both agencies were removed.

For TxDOT-sponsored programs to meet the initial inclusion criteria, programs must conduct education and outreach related to reducing and preventing alcohol and drug use and abuse in children and adolescents. Next programs were screened to determine if they were still active.

#### C. Data Collection and Entry

The final collection included 34 evidence-based programs for schools and 10 TxDOT-sponsored programs. To capture all relevant information about the programs, the TxIDTF entered the following information for each program into Qualtrics, an online surveying tool which compiled the information:

- Program objectives, goals, and description
- Target age group
- Entities that certify programs as evidence-based
- Specific substances the programs are aimed at reducing and/or deterring the use of
- Program components
- Cost of the program
- Program evaluation information
- Associated Texas Essential Knowledge and Skills (TEKS)

To increase validity and reliability of the document and information collected, each program was reviewed, and data entered by two reviewers. The information was then synthesized into the program summaries that precede.
