**2022**

## **DWI Resource Prosecutor Listening Session Report**

**Gathered: December 1, 2022**

**Horseshoe Bay, TX**

# Summary of TDCAA's 2022 DWI Resource Prosecutor Listening Session Report

In 2008 TDCAA did its first listening session of elected Texas prosecutors on issues related to traffic safety and impaired driving generally and TDCAA's traffic safety grant project with TxDOT, "DWI Resource Prosecutor". That report established Texas prosecutors' assessment of impaired driving cases as a priority and the success of the "DWI Resource Prosecutor" project to Texas prosecution. That report has been made a part of grant applications since that time. It has been presented and discussed by the State-wide Impaired Driving Task Force. It has been emulated by other Traffic Safety Resource Prosecutors in other states. It has been presented to two NHTSA assessment teams in impaired driving assessment teams in Texas.

In the summer of 2022, it was suggested by the second of those assessment teams that refreshing the data was probably overdue. The DWI Prosecutor Task Force sponsored by TDCAA as part of the "DWI Resource Prosecutor" project agreed in October of 2022. The next opportunity for such a session was November 30-December 2, 2022, at TDCAA's Elected Prosecutor Conference.

Over 100 of the slightly more than 300 elected prosecutors in Texas enrolled in the course and participated in the session. A list of all elected prosecutors attending the program and participating in the listening session and survey is the last section of this report. Poll Anywhere was used to provide anonymous and confidential feedback. As indicated in the poll anywhere report 105 of the individual attendees logged in to participate. Exact numbers of responses are in that report. Over 30% of the target population participated in this session. That is quite high for most such related polls. The group included prosecutors of all levels, regions, size of office and length of tenure.

There were six responses requested. The first was to the type of office represented. The percentages of felony only prosecutors (23%), both misdemeanor and felony (43%), and misdemeanor only (32%) does show the group was not completely reflective of elected prosecutors, but very reflective of actual prosecutor division across the State. In other words small county County Attorneys were under represented and large urban counties were overrepresented, but at the same time the subject group far better represented the total number of prosecutions than a 1005 collection of elected prosecutors. It is important to note that two attendees do not have criminal prosecutor responsibilities and did not further participate.

The other questions posed paint a very clear picture of Texas prosecutors. Impaired driving cases are a priority and important to them. The "DWI Resource Prosecutor" program is well received and important to them. Although there were 4 "I don't know" responses to the project question it is important to note that 10 of the attendees had been elected to their position but had not yet taken office. A 4% need for improvement is also an appropriate conclusion. The problems of drugged driving prosecution and the need for more DREs is also quite clear.

The final polling question allowed participant to enter as many as three short phrases assessing the challenges for prosecution. With over 100 responses a couple of trends are clear prosecutors want 1) better officer training, 2) faster and broader lab results, 3) more resources. These answers very closely parallel the information provided by the yearly DWI Prosecutor Task Force.

### The main impediments to more successfully prosecuting DWI offenses and impaired driving crashes resulting in injury or death in my jurisdiction is (list no more than 3):

- " No prompt lab results "
- " Trooper forgot his "smart" hat "
- " All our alcoholics are elected officials. "
- " Continuity of investigations "

#### Responses

- No prompt lab results
- Trooper forgot his "smart" hat
- All our alcoholics are elected officials.
- Continuity of investigations
- no ability to test for drugs after alcohol test result
- Report writing
- Need more trial attorneys
- more LE training at crashes/boating - work all we if intoxicated instead of oops later  
lack of evidence  
faster labs
- Lack of Getting cases timely due to high number of reported cases
- Better strategy for jury selection
- More judges able to sign blood search warrants
- suspect hauled away before apprehended: border
- More officer training on sfsts  
Jury knowledge about drugged driving
- Accident reconstruction
- Officer Training
- More cop training  
  
Speed of Offense Report Transfer  
  
DPS back from border since my locals generally WON'T do SFSTs.
- Coordination of SO, DPS, Prosecutors
- Officer training, poor investigation,

Responses

### Responses

DPS troopers are unable to do the follow up investigation needed due to border, lack of troopers, and the requirements to write tickets.

no blood/breath

It would be great to have more prosecutors. Also, adding an education piece to the judges at their CLE. Some of the county judges have gotten bored with DWI's and I don't think they take it seriously enough.

Lack of training

turnover w staff at the labs so having to piece case together with other experts or retesting

Judicial reluctance to be available at night

Limitations on BAC testing; not enough admissible testing devices and Certified technicians.

Better initial investigation and faster lab results.

LAW ENFORCEMENT TRAINING

No crime scene investigation

More training

Prepare law enforcement for testifying

Faster blood draws with subsequent timed draws for retrograde issues

Poor Investigation.

Blood draw post accident, blood seizure from hospital, officers available to investigate injury/death cases.

Better police traing & faster labs

Countering defense experts

Judges available for blood warrants

Responses

- Poor investigation
- Accident reconstruction experts
- Lack of DPS investigation
- Better reports/investigations by LE
- Officer training      Labs too slow
- More l e training.
- Sheer numbers, bad reports, and PC issues
- Lack of good accident reconstructions
- More blood warrants on suspicion of driving while intoxicated
- Blood warrant      Poor investigations
- Better law enforcement investigations and training for officers on how to testify successfully . Also tons of turnover f
- Faster labs      Faster labs
- 2. lack or evidence collection
- Good investigations.
- Good testimony.
- Faster turn around on toxicology on blood when drugs are present. Looking at you, DPS.
- 1. Lack of investigator training and diligence in investigation.
- Lack of full investigation
- Faster blood testing on drugged DWI cases
- Officer training on accident reconstruction and drugged driving

Responses

- dumb juries
- Officer training.
- Officer training
- Better investigations.
- Lack of investigation
- Lack of officers to transport for blood or breath
- More accident reconstruction training
- Rural jury expectations
- Lack of experts, no lab or breath test
- Bad investigation
- Quality investigation by l.e.
- Officer training
- Lack of LE training
- Law enforcement is reluctant to get blood warrants
- Training
- Lack of evidence
- Better investigations
- Poor investigation
- No blood or breath
- Training law enforcement
- Better police traing & faster labs.
- Bad reports and lack of investigation
- Bad case reports and lack of evidence
- Quicker case presentation by DPS
- Lack of law enforcement officers with SFST training;
- Investigation training
- More law enforcement training
- Better officer training
- Public perception.
- Lack of training
- Lack of blood or breath test
- No blood/breath
- Investigation

Responses

Lack of judges available to sign blood warrants at night

More officer and prosecutor training

Lazy Police Officers that do not follow County wide protocol

Law enforcement training

Time required to get blood warrant

Faster DPS lab turnaround

Poor Investigations

Officer training

1. Lack of investigation at the crime scene

Time in getting case from agency

Lack of LE training

Faster labs.

No breath or blood.

Bad case reports and lack of evidence

Lack of good investigation

# 2022 Elected Prosecutor Conference

November 30 - December 2, 2022

Horseshoe Bay, Texas
